

Frequently Asked Questions (FAQ)

1. What is GPTCoin?

 GPTCoin is a financial technology company affiliated with Goldman Sachs and the pioneering decentralized financial platform in the United States offering AI trading robot services. Our primary objective is to provide global investors with convenient, efficient, and secure decentralized financial trading services through our proprietary AI FOX technology.

2. What is AI FOX?

 AI FOX is an AI-powered automated trading system developed by GPTCoin.

3. What are the operation principles and features of AI FOX?

 AI FOX leverages AI quantification technology based on the ChatGPT4 source data model library. It combines advanced machine learning algorithms and natural language processing techniques to seamlessly integrate AI quantification with financial services. AI FOX has developed a highly accurate prediction model and an intelligent trading system. It continuously analyzes global market dynamics in real-time, providing information and recommendations on market conditions, technical analysis, fundamental analysis, and more. By optimizing fund allocation and enhancing fund liquidity efficiency, AI FOX aims to deliver stable and efficient investment returns.

4. Is it safe to invest in GPTCoin?

 Investing in GPTCoin is highly secure. We prioritize the safety of your funds and data by employing state-of-the-art encryption technology and implementing smart contracts. Our AI trading robot service has undergone extensive testing and verification, ensuring efficient and stable trading strategies. Additionally, our dedicated customer service team is available to address any inquiries you may have. GPTCoin is a trusted decentralized financial platform, and we invite you to join us and experience our services.

5. What is GPTCoin's development plan?

 GPTCoin's development plan is to become a global leader in decentralized financial platforms, offering high-quality AI trading robot services to a wider range of investors. Our objectives include continuous improvement of our AI FOX technology, enhancing trading efficiency and profitability, expanding our business scope and partnerships, and establishing connections with more decentralized financial projects and platforms. By doing so, we contribute to the growth of the decentralized financial ecosystem. We also value user feedback and needs, and we strive to optimize user experience and service quality continually. Our goal is to provide every user with secure, convenient, and efficient decentralized financial trading services on GPTCoin.

6. When can I make withdrawals? Are there any associated fees?

 You have the flexibility to make withdrawals at any time, with a minimum withdrawal amount of 10U. Please note that there is a transaction fee of 5% based on the withdrawal amount.

7. Does being at the same level mean no rewards?

 No, being at the same level still entitles you to rewards. In fact, there is a 20% same-level bonus available for members who are at the same level.

8. How many nodes are left?

 All nodes have been sold out.

9. Do static profits have compound interest?

 Yes, static profits have compound interest. For the 7-day contract, the compound interest rate is 1%, and for the 60-day contract, it is 1.5%.

10. How long is the capital locked?

 The capital is locked for either a 7-day or 60-day cycle, depending on the contract duration.

11. Why can't one app be linked to multiple accounts? Is it possible to have multiple account bindings in the future?

 Currently, one app can only be linked to a single account. However, we are working on introducing the functionality to link multiple accounts in the near future. Please stay updated for further announcements.

12. Can I immediately send an invitation code to my downline after registration?

 No, you can only send the invitation code to your downline after depositing a minimum of 10U and successfully purchasing the gift package.

13. If one team has 70,000 and the other team has 1,000, does it qualify as G2?

 No, it does not qualify as G2. To upgrade to G2, both teams must have at least one G1 member, and the total performance should reach 70,000.

14. Are there any fees for withdrawing capital or nodes?

 There is a 5% withdrawal fee for all withdrawals.

15. Is there any benefit if my team reward level is surpassed?

 Once your team reward level is surpassed, your team will no longer receive additional rewards. However, other teams will continue to receive ongoing benefits.

16. How does the GPTCoin (GPTC) appreciate?

 The appreciation of GPTCoin (GPTC) is influenced by multiple factors, including

- 5% of the withdrawal fees
- 10% of the daily profits generated by the company

17. How do you ensure that the trades are not loss-making, and is AI Fox as powerful as you claim it to be?

 AI Fox continually learns and adapts, utilizing the latest trading strategies. Based on our Binance data, it has demonstrated the potential to generate returns ranging from 2% to 10%.

18. Who are the top executives in the company?

 Our company is led by Vice President Mark Gilbert and his team. They actively participate in various meetings and events to engage with our community.

19. Can I leave the interest in the principal wallet for compounding, but withdraw the principal amount?

 When you withdraw the principal amount, the funds in the earnings wallet will also be withdrawn together.

20. What is the relationship between your company and Fintoch? Why can't I download your app after downloading theirs?

 There is a conflict in the trust certificates for Apple devices, which restricts the ability to download both apps. However, this limitation does not apply to Android devices.

21. If I lose my wallet's private key and seed phrase, can I still recover the wallet?

 No, it is not possible to recover the wallet in such a situation. Since the blockchain is decentralized, there is no centralized database or authority that can assist in recovering lost credentials.

22. How can you prove that your transactions are genuine?

 We regularly update the Binance account data every one to two weeks. Additionally, we showcase the live data during specific online conferences or events, providing transparency and evidence of genuine transactions.

23. If I accidentally delete my wallet, how can I recover it?

 Wallet recovery is only possible if you have the seed phrase or private key associated with the wallet. Without these credentials, it is not possible to recover the wallet.

24. How long does it take for withdrawals to be credited?

 Withdrawals typically take approximately 3-5 minutes to be credited, depending on the verification time on the USDT chain.

25. Will the company establish offices in our country (Vietnam, Indonesia, China, etc.)?

 Currently, our Southeast Asia operational headquarters is based in Malaysia, and we have multiple operational centers in various countries.

26. Where is the company's founder from?

 The founder of the company is from the United States. Our team consists of highly experienced technology professionals and investment experts.

27. When was GPTCoin (GPTC) launched?

 GPTCoin was officially launched on May 31, 2023, and it is now available for trading.

28. Will the total supply of GPTC increase?

 The total supply of GPTC is fixed at 210,000 and will not increase.

29. How many coins does GPTC mine every day?

 GPTC mines a certain number of coins every day, which depends on two factors. Firstly, based on the static volume, a designated amount is distributed daily. Secondly, there are daily airdrops for node partners.

30. If I invite someone but haven't activated myself, can I share my invitation code with them?

 No, you cannot. Your invitation code is not yet activated, so your invited friends cannot use your invitation code to activate.

31. Are the profits earned given in USD or coins?

 They are given in USD.

32. Are the levels received from nodes permanent?

 Yes, they are permanent.

33. Where can the whitepaper be found?

 The whitepaper can be found on our official website.

34. If I purchase the newcomer package, do I still need to purchase the official package?

 Yes, you will need to purchase the official package as well. The newcomer package only allows you to refer friends. If you want to receive dynamic bonuses, you must purchase the official package.

35. How does the company generate profits to pay customers?

 The company generates profits by utilizing AI Fox to trade Bitcoin and Ethereum contracts on exchanges such as Binance.

36. How to upgrade to G1?

 To upgrade to G1, you need to directly refer 5 people and achieve a total performance of 30,000.

37. Are there any transaction records?

 Yes, there are transaction records. The transaction records are updated every one to two weeks.

38. In which countries has GPTC entered?

 GPTC has expanded its presence in various countries, including Indonesia, China, Russia, India, Vietnam, South Korea, African countries, and more.

39. What is the minimum staking amount?

 The minimum staking amount is 100U, and it can be made in multiples of 100U.

40. If out of my 5 direct referrals, one achieves sales of 30,000 while the other 4 have sales of only 100 each, can I still become a G1?

 Yes, you can still become a G1 as long as the criteria of having 5 direct referrals and a total performance of 30,000 are met.

41. If my direct referral level is higher than mine, can I still benefit from their team profits?

A: While you may not receive direct earnings from them, their team's performance can contribute to your

 advancement to higher levels within the program.

42. How long can we receive 1-5% from the \$10 benefits of new members?

 The earning potential from the benefits of new members is ongoing. As long as your account remains active, you will continue to receive the respective percentage based on the \$10 benefits.

43. Can we change the bound wallet? For example, if TRX is bound to the GPT account, can we change it to BNB?

 No, it is not possible to change the bound wallet once it has been set. The wallet binding is permanent and cannot be altered.

44. How can we ensure that the company is actually using AI Fox?

 AI Fox is developed using advanced technology based on the foundation of ChatGPT 4.0. This cutting-edge technology enables the system to achieve high accuracy and profitability. The company's utilization of AI Fox is evident through its performance and results.

45. The allocation of 20% of the platform's tokens is for ecological development. How are the tokens utilized?

 The allocated tokens are utilized for the future development of the public chain, supporting the growth and expansion of the ecosystem. The specific utilization of these tokens will be in accordance with the company's strategic plans and initiatives.

46. How is the 10% contribution matched and allocated to members?

 The allocation is based on the membership package and deposit amount of direct referrals.

47. Why are the contract durations 7 days/60 days?

 The contract durations are set to ensure sufficient profit distribution based on the profits from the contract trading.

48. How can platform tokens be withdrawn, and what is the minimum withdrawal amount?

 Platform tokens can be withdrawn by exchanging them through the DAPP (Decentralized Application) provided by the platform. The minimum withdrawal amount for platform tokens is 0.1 tokens, ensuring flexibility and accessibility for users.

49. If profits are not withdrawn, do they compound? Does the principal amount also compound?

 Profits generated from investments do not automatically compound. However, the principal amount has the potential to generate additional profits based on the investment activities and market performance. It is up to the user to decide whether to withdraw profits or reinvest them for potential compounding.

50. Will there be an automatic reinvestment after the contract ends?

 No, automatic reinvestment after the contract ends is not enabled by default. Users need to actively select the option for automatic reinvestment if they wish to reinvest their funds into a new contract.

51. If I don't click on automatic reinvestment when the contract expires, where will the funds go?

 If automatic reinvestment is not selected when the contract expires, the funds will be automatically transferred to the withdrawable balance on the market webpage. From there, users can choose to withdraw the funds or allocate them for other purposes.

52. After the platform tokens are exchanged, where do they go?

 After platform tokens are exchanged, they are automatically transferred to the withdrawable balance within the platform. Users can then decide whether to withdraw the tokens or utilize them for other activities and transactions within the platform.
